GEORGIA FACING STATE FORCE IN FLOGGING CASES

Governor Walker offers list
Of rewards for parties
In state offenses

REFORMATORY INVADIED

One arrest brought about in
Connection with recent
Mob whippings

(By the Associated Press)

MILLEDGEVILLE, Ga., Aug. 11.—The first arrest in connection with whippings in middle Georgia took place late today when J. J. Nolan, former guard at the state training school for boys, was taken into custody on a charge of inciting a riot. The arrest was made by Sheriff S. L. Terry. Preliminary hearing will take place next Saturday. Mrs. Orion Manson, superintendent of the boys training school, announced tonight that a machine gun with an experienced operator had been set up at the school for the purpose of protecting the inmates and the people employed there. She also said that other means had been taken to protect the institution from any possible attack.

The "full power of the executive department will be used" to stop the "series of floggings in Macon, Bibb county, and other mob outrages in the state," Governor Walker stated tonight at his offices in Atlanta in announcing rewards for the arrest, with evidence to convict, of persons connected with the recent whippings in Macon and an invasion of the state reformatory here.

The governor offered a reward of \$500 for the leaders of the Macon flogging party and \$100 for each member. He offered similar rewards for the leader and members of the mob that invaded the state reformatory.

MACON, Ga., Aug. 11.—Local authorities today had before them a recurrence of masked flogging spees which some months ago attracted widespread attention.

Reports were made today that four men had been beaten Thursday night by masked bands. R. E. Bobo, proprietor of a small grocery store, made his way home today after having been severely flogged and left in the woods. He was placed under the care of a physician. Summary treatment was also administered for alleged illicit liquor traffic. Gus Roberts, said to be Perry's friend, and J. B. Good-year, the police were apprised during the day. No arrests have been made.

ATLANTA, Ga., Aug. 11.—State investigation of the reported floggings at Macon Thursday night of four men by masked bands has been ordered by Governor Walker. He announced today. The governor also said he is expecting developments in the inquiry being made at Milledgeville where a band of men are reported to have twice visited the Georgia training school for boys at night with the expressed intention of whipping two negro attendants there.

NO DEVELOPMENT YET IN MOONSHINERS WAR

(By the Associated Press)

LOUISVILLE, Ky., Aug. 11.—A day at least must elapse before definite details can be had of a battle reported to have occurred late Thursday near Cockrill's Fork on Lost Creek on the Perry-Breathitt county line in which three prohibition raiders were killed and one wounded in a clash with moonshiners, it was indicated by reports assembled here today. First news of the clash was received from Lennett between Hazard and the Breathitt county line and were said to have been brought by Alex. Graheart, who arrived there yesterday and claimed his three fellow raiders, R. L. Stewart, J. C. Carpenter and C. D. Morrison, had been killed. The raiding party was trapped in a small valley and subjected to a withering rifle fire from the mountainside. Graheart was reported to have related.

Deputy Sheriff James Deaton returned to Hazard last night with several alleged moonshiners arrested by a posse which went to that section in which the clash was reported to have occurred. Deputy Deaton said, however, that his posse failed to find the missing raiders or signs of the battle.

Bernard Shaw never eats meat.

NEMESIS OF FAKE STOCK PEDDLERS

H. J. Kenner.

H. J. Kenner, head of the better business bureau of New York, is the nemesis of fake stock peddlers, crooked agents and dishonest merchants. The bureau is assisting the state and federal governments in the campaign to drive the "sharps" out of business.

WIDOW OF GRIEF BACK TO STATION

Harding's Widow Returns to
Gather Personal Effects
Of President

(By the Associated Press)

WASHINGTON, Aug. 11.—Mrs. Harding, who returned to Washington this morning from Marion, spent the entire afternoon supervising the clearing out of effects of the late president from his office in the executive building. Secretary Rudolph Forster, the executive clerk, and others of the White House staff were called into assist and a mass of material, consisting chiefly of correspondence and memoranda, was taken away.

It is Mrs. Harding's present purpose to remain in the White House at least until Monday, after which she may take up a temporary residence here, either at the home of Mr. Christian or of other friends. Mrs. Coolidge, wife of the president, greeted her at the White house on her arrival from Marion and remained with her for a brief time.

As the train, which will have a place in history by virtue of the momentous journey it had traveled, approached Washington to be broken up finally for other uses the widow of the president called to her stateroom every member of the party that had made the pilgrimage to Alaska and back and thanked each one individually for remaining with her "until the end." She appeared to be bearing up courageously after yesterday's ordeal in Marion.

She was driven directly to the White House where it was said that only a few days would be required for her finally to close out her affairs there and take leave of the mansion which had been her home since 1921.

WASHINGTON, Aug. 11.—At the White House to receive her when she arrived was Mrs. Coolidge, who herself had reached Washington a short time before from Marion. The new first lady of the land insisted that Mrs. Harding remain as long as she desired. After a short visit Mrs. Coolidge returned to her hotel suite in the New Willard and Mrs. Harding made known her intention to receive no other callers during the day but to spend much of the time in resting.

Kentucky Enemies End long feud as Death claims both

(By the Associated Press)

HARLAN, Ky., Aug. 11.—Personal difficulties between Hiram Middleton and Dinnie Williams, late residents of Clover Fork in this county, were settled today. Both men are dead. Williams shot and killed Middleton in Kilday, a mining town seven miles from here, late yesterday after an altercation which followed a card game. Williams was arrested and placed on a train filled with miners to that town. As the train passed through Verda, a station two miles from Kilday, members of a crowd said to have been friends of Middleton fired through the windows of a coach, killing Williams instantly. No arrests have been made.

THREATEN TULSA WITH IRON HAND IN MOB WHIPPING

Governor indicates no action
To be taken as Tulsa
Authorities active

BAND OF MEN ACT

Kidnap man near police
Station; Walton warns
Police department

(By the Associated Press)

OKLAHOMA CITY, Aug. 11.—Convinced that Tulsa authorities are making an exhaustive investigation into the flogging there last night by a band of unidentified men of Nathan Hantman, Governor J. C. Walton let it be known here today that he does not contemplate state action in the affair.

The governor, just before leaving on a motor trip, declared he was satisfied with the efforts being made by Tulsa county officers to apprehend the members of the mob.

TULSA, Aug. 11.—Tulsa faces a possible threat of martial law today as the result of another kidnapping and flogging marked against its record last night.

Whether state action would follow the latest case of mob activity was expected to depend upon the explanation made to Governor J. C. Walton by local authorities.

Informed of the abduction last night shortly after it took place the governor telephoned Police Chief Reese Moran and advised him that he had heard it was charged that the police were involved in the affair. Chief Moran admitted that the executive had declared he was seriously considering placing the county under martial law.

Denial as made by Chief Moran that the police had connived in the kidnapping. Since placing Okmulgee county under martial law several months ago with the announced intention of stamping out lawless activities of mobs, Governor Walton has repeatedly declared that he was ready to place every county in the state under military rule if necessary to compel proper respect for the law.

Last night's mob victim was Nathan Hantman, said to be of Jewish extraction. He was seized by unmasked men on Main street within a block of the police station and carried out into the country in an automobile, where he was lashed with a blacksnake whip.

Hantman was brought to a local hospital where his condition was said to be serious.

Hantman declared at the hospital that the police came to his room in a rooming house early last night and after searching the place took him to the station.

MERCURY GRANTS SLIGHT DECLINE

Temperature reports indicate
peak of summer heat
Now past

The past week, while not showing such high temperatures as the one just preceding, has furnished quite enough heat for perspiring Oklahomans and in a very few sections has threatened rain.

Temperatures for the past week have ranged for the most part around the century mark, going one or two degrees below and above. Wednesday and Thursday saw the government thermometer here take a temporary ascent to 102 degrees, but the high average of the former week could not be maintained.

The weather man seems unable to provide the long needed rain. This season has been the driest on record for the fourteen years in which the government has maintained a weather bureau here so that like seasons can run only in the memory of the oldtimers of the county.

Hopes of local citizens rose on several occasions when the skies were temporarily dimmed by promising clouds but no rain materialized here. Small portions were doled out sparingly around the city but Ada herself was left completely drouth stricken.

Last but not least the weather man continues to offer generally fair or partly cloudy as the best that he can do.

King of Persia in \$65 B. C. was the first to develop hunting with cheetahs or trained leopards.

Robs Band And Takes in Cash Of Customer

(By the Associated Press)

CHICKASHA, Aug. 11.—The bank at Bradley, a village twenty miles southeast of here, was held up this afternoon and robbed of \$1278.

One bandit entered the bank while his companions waited outside in a motor car. Cashier Roy Mitts was in a neighboring business house when the holdup was staged. A girl who was alone in the bank was locked in the vault with a customer who walked in during the robbery. The bandit accepted the customer's deposit.

A considerable quantity of gold and gold certificates was overlooked by the bandits.

The robbers drove out of town without attracting attention. Today's bank robbery made the second in Grady county within ten days. On August 1 the First State Bank at Rush Springs was robbed of \$3,300.

REPAIRS ADD TO COLLEGE PLANS

Administration building shows
Handiwork of repair man;
Gym is overhauled

Former students of the state teachers college who visit the school during the coming year or return to continue work in the school will be surprised and it is believed delighted with the changes and repairs now under process of construction.

Considerable work is being done on all the buildings on the campus, including the gymnasium which is being rebuilt so as to accommodate a much larger number of spectators in a more convenient manner.

In the administration and education buildings every room is being kalsomined and painted. In the main building the color combination being used is cream and gray.

The condition of the administration building, which was the first to be constructed on the campus, is being greatly improved by the painting and other repairs planned for it. Among other things the roof will be practically all replaced. Many of the old walls of this building were replaced and strengthened during the summer term of the college.

The gymnasium is being remodeled and enlarged. Old supporting timbers are to be replaced with new and stronger ones. The balcony, which in the past has interfered with the progress of basketball games played in the gym, will be entirely removed, leaving no obstruction in the way of the players.

The sides of the building will be torn away and rebuilt in such a way as to extend fourteen feet from the side of the present structure on the east and west sides. Sloping tiers of seats will be constructed in the seating capacity of the building will be over eight hundred, with some standing room remaining.

Windows will be provided above the level of the highest spectators. With a hard pine floor forty by eighty feet the gymnasium will offer a playing surface second to none.

The college authorities expect to have practically all of the work now planned done by the beginning of the fall term of school in September.

NEW BOILERS TO ADD POWER AT BYNG PLANT

Continuing their plans for further increasing the power facilities for the Ada district, The Oklahoma Gas and Electric company will install two 150 horsepower boilers at the Byng plant here.

According to the statement of officials here, boilers have been shipped and are expected here daily. Directors for the construction work are here waiting to begin the installation of the new boilers, which will increase the power extremities from the Byng plant.

The Sterling super-heater boilers are of the latest products on the market today and will fill the needs of power output for the local plant.

Through the increased territory placed on contributory lines from the Byng plant, the plant has been unable recently to furnish sufficient current power.

Compressed air shovels have been found great time savers in cramped places.

COOLIDGE TAKES ACTIVE STEP IN GOVERNMENT JOB

President confers with his
Department heads on
Present matters

BUSY WITH AFFAIRS

Reiterates Statement that
None of officials to
Be ousted

(By the Associated Press)

WASHINGTON, Aug. 11.—President Coolidge, returning to the capitol today from Marion where he attended the funeral of President Harding, summoned cabinet officers to his temporary executive office and expressed to them his desire that the administration force close their ranks and march ahead. He reiterated his wish that all the present cabinet members continue in office and some of his callers are of the opinion that there will be no change in the executive's official family for some months at least.

Singly or in groups the heads of seven of the government departments conferred with Mr. Coolidge placing before him details of the more important matters pending in their spheres of government. They were: Secretaries Hughes, Weeks, Hoover, Work, and Wallace, Postmaster-general New and Attorney-general Daugherty.

The president's return to his desk was regarded as marking the actual beginning of his task of formulating the policies which are to govern his conduct in office. During the interim since he took the oath of office a week ago he has been almost constantly engaged with the funeral ceremonies of his predecessor and he made it a rule to take no decisive action on any public question until the last obsequies were over.

One of the first concerns of the chief executive will be to select a secretary to the president to succeed George G. Christian, Jr., who resigned yesterday. Few other immediate changes are expected in the personnel of the administration. All the cabinet members will stay for the present at least.

For today Mr. Coolidge had on his engagement list a number of conferences with leaders in congress and others who desired to lay before him information and advice on many subjects.

Among the first to call at the president's hotel was representative Graham of Illinois, one of the candidates for the republican leadership in the next house, and Representative Wurzbach, republican of Texas.

San Antonio Man Is Acquitted on Charge of Murder

SAN ANTONIO, Aug. 11.—G. C. Taylor, charged with the murder of Mrs. Elizabeth Jackson here June 25, 1923 was found not guilty by the jury in 94th district court this afternoon after deliberating two hours and ten minutes. Taylor was charged with shooting the woman in a rooming house. He claimed self defense and testified that the woman had fired at him before he shot her. Taylor's wife testified she had seen Mrs. Jackson advancing toward Taylor's room with a pistol just before she heard the shooting. A 25-caliber pistol was found near the body of Mrs. Jackson. She had been shot with a 45-caliber weapon.

Foreigners Forced To Leave Oklahoma Town by Laborers

COLLINSVILLE, Okla., Aug. 11.—Foreigners who have been calling Collinsville their home for some time and living on Smelter Hill left in droves Saturday morning while stern faced men stood about and watched their actions closely.

The foreign population did not leave voluntarily but under threats. American laborers at the Tulsa Fuel and Manufacturing company smelter here who clashed with foreign laborers at the smelter Friday and chased them from the plant again got into action Saturday.

HARDING'S HOME TOWN SETTLES DOWN TO FORGET

MARION, Ohio, Aug. 11.—Her hour of sorrow over, Marion today returned to her accustomed ways. Gone were the silent crowds that streamed into town yesterday to pay their last respects to the late Warren G. Harding, the gentle, unassuming newspaper editor who became president of the United States.

MAN WHO "FOUND" COOLIDGE IS NOW HIS "COL. HOUSE"

Frank W. Stearns.

Frank W. Stearns, Boston merchant-millionaire, the man who "brought out" Calvin Coolidge and "put him in the governor's office in Massachusetts and then put him forward as a vice presidential candidate, becomes the "Col. House" of Coolidge's administration. Stearns is Coolidge's closest friend. The Boston man joined the Coolidge party a few hours after the new president began his duties.

RURAL SCHOOLS SHOW INCREASE

Forty-five schools now open
In county; High school --
Work offered

Rural summer schools now in session over the county are far in advance in work and attendance of records shown in past years, according to A. Floyd, county superintendent.

A general survey of rural schools conducted by Mr. Floyd and W. C. Herring, of the college faculty, revealed that thirty-five schools visited were progressing rapidly toward the close of one of the most successful summer sessions in the history of the county.

While steps have been taken to discourage the summer sessions the enrolment for mid-summer terms have grown steadily each year, Floyd stated.

Forty-five rural schools in the county are now under way with summer work, which is the largest number on record.

Floyd declared that schools offering high school work were showing better spirit this year than ever before and that many students in the county would show records of creditable work for the year.

Many schools started early in the summer, while others were late in opening.

Gasoline price at Five cent bargain In retailer war

SAPULPA, Aug. 11.—Gasoline is selling for ten cents a gallon here today at virtually every filling station in the city. The tank wagon price is eight cents a gallon, according to petroleum distributing company which handles gasoline for the Sapulpa Refining company. The five retailers who cut the price to five cents for a time yesterday did a capacity business when automobile owners rushed to fill their tanks at the bargain price.

None of the dealers will express an opinion as to when the price war will end.

Gasoline prices Take big slashes In North Dakota

CHICAGO, Aug. 11.—A reduction in the price of gasoline in South Dakota to sixteen cents a gallon was announced here today by the Standard Oil company of Indiana. The action was taken by the board of directors, according to a statement issued by them, as a result of an order by Governor W. H. McMaster of South Dakota on August 7 that the highway supply depots operated by the state at Mitchell, South Dakota, sell gasoline at sixteen cents a gallon. Gasoline has been retailing in the state at twenty-six cents a gallon.

ESSINGHAM, Ill., Aug. 11.—The medical detachment of the 130 Infantry consisting of twenty-eight men fully equipped, under the command of Major E. L. Dameron and Captain Phillips, left here late today for Mattoon where they will be met by several other companies en route to Hillsboro for strike duty.

GERMANY GROPE IN UNREST WITH RIOTS IN VOGUE

Communists foster agitation
With shortage of food
Supplies

GOVERNMENT WARNED

Aix-La-Chapelle and Crefeld
Suffer Brunt over
Food Riots

(By the Associated Press)

BERLIN, Aug. 11.—Unrest is on the increase in Germany. Food riots strike disorders, and agitations fostered by the communists are among the troubles wherewith the government of Chancellor Cuno is contending.

And to make its position worse the government's tenure of office by reason of the "no confidence" decision of the united socialists appears soon to be over. There was every indication that the government would announce its retirement at almost any moment.

The most disastrous disturbance of the day occurred at Aix-La-Chapelle, where strikers who were trying to seize crops from the peasants were confronted by self protection squads organized by the peasants. Eleven persons were killed and there were many wounded.

Crefeld, one of the principal seats of German manufacture in Rhenish Prussia, has been in turmoil for many hours. Food shortage and lack of currency are especially severe here and demonstrations which began yesterday aroused the populace to such a pitch today that they began plundering food shops. These demonstrations brought death to four persons and injury to about thirty. Virtually all the plants in the district are shut down.

Inability of employers to meet the payrolls has been the cause of other demonstrations, especially in Hamburg. Many plants here have ceased operations because of strikes, the workmen are giving vent to their feelings by parading the downtown streets and in consequence there have been clashes with the police.

GELSEKIRCHEN, Germany Aug. 11.—Food rationing, similar to that of war days, was inaugurated in Gelsenkirchen today by the German authorities owing to the scarcity of meat, fats, potatoes, milk and other essentials. The town has been without fresh milk for two days and has gone without butter for a week.

BERLIN, Aug. 11.—Eleven persons were killed and many others wounded today in a clash between striking workmen and peasants at Aix La Chapelle, according to a report reaching Berlin this afternoon.

After a raid yesterday the peasants organized self protection squads which this morning proceeded to repulse invaders who attempted to forcibly seize crops and stores of food.

CREFELD, Prussia, Aug. 11.—During the plundering of food shops here and other demonstrations against the food shortage and the stringency of the currency four demonstrators were killed and several of whom are expected to die, during a clash with the newly organized police.

Several textile plants which had contracts with United States importers were seized by demonstrators, some of whom carried red flags. Virtually all the manufacturing districts of Crefeld are at a standstill owing to the demonstrations which began yesterday.

BERLIN, Aug. 11.—The United Socialists in party caucus today adopted resolutions withdrawing confidence from the Cuno government. The chancellor has been notified and it is believed he will resign before midnight.

Despite the immense crowds parading Unter Den Linden and the adjacent streets of the city Berlin was quiet up to two o'clock this afternoon. President Ebert and his entire cabinet attended the Reichstag which were given strong police and troop protection.

LONDON, Aug. 11.—Chancellor Cuno handed President Ebert his resignation today, says a Central News dispatch from Berlin, but the president refused to accept it.

British Reply Delivered

BRUSSELS, Aug. 11.—The British cabinet reply to the Belgian rejoinder to its proposed note answering the German reparations communication of June has been delivered to Baron Mocher, the Belgian ambassador in London.

The Cortlandts of Washington Square

by Janet A. Fairbank

COPYRIGHT BY THE BOBBS-MERRILL CO.

Janet A. Fairbank.

In winter Ann Byrne shoveled snow for the woman who had taken her in with her pretty widow's cap and went skating in her best jacket. Of course, since she preferred thin ice, she fell through. But it was no fun skating, said Ann, unless you skated on thin ice. This characteristically leaning was always hers. Great was her facility for shocking her Washington Square relatives. Mrs. Kelllogg Fairbank (Janet A.) was born in Chicago. Her father was a prominent lawyer. In 1912 she was western chairman of women of the Progressive party. She joined the Democratic party in 1917 and was a member of the executive committee of the Democratic National committee under Homer Cummings. She is well known as a political speaker in various states; always deeply interested in Chicago city government, and in 1921 was chairman of the women's committee in the successful coalition judicial campaign; member of the national congressional committee of the Democratic party and vice chairman for Illinois of the Woodrow Wilson foundation.

During the war she was a member of the women's executive committee, Illinois branch, of Council of Defense. She was appointed by Mr. McAdoo a member of the women's national advisory loan committee with headquarters in the Treasury building, Washington. She helped to organize the women of the United States in five towns and during the time was in all but five states, organizing and speaking. She has done dramatic and musical criticism, much feature writing for newspapers and is the author of a play entitled "Three Years More." The successful production by Adolph Klauer. "The Cortlandts of Washington Square" is Mrs. Fairbank's first novel, written on the urge of one of Chicago's best-known novelists, who believes enthusiastically in her talent for fiction writing. It was accepted by the first publisher to whom it was offered.

CHAPTER I

News.

A little girl of ten years was clearing the snow from a path leading to the side door of a farm-house so small that it barely emerged from its brilliant setting. Its walls, a soiled yellow-white, poked out of the drifts with an air of innocent disreputability, and its long roof dipped deep into the solid snow. The child did not pause until she reached the gate; then she straightened her slim back experimentally, and breathed deep of the frosty air. With a wide sweep of her mitten hand she cleared the top rail of its incumbrance of snow, and swung herself up to perch there. She sat, a funny, hunched little figure in a tight jacket, and a full and too short skirt which betrayed to a censorious world extraordinarily knobby long legs. She was a red-haired child, with an eager wedge of a face that took no color from the keen wind off the New York hills; against the pallor of her cheeks her lips showed brilliantly red, and her eyes gloomed deep and ceremonious above an impudent nose. On the whole, she looked rather a difficult little girl; the old gate creaked, protestingly.

A lean little boy, whose red stockings and cap made a brilliant splash of color in the white landscape, came whistling down the road. The little girl paid no attention to him, and when he reached the gate he paused with elaborate casualness to scoop up a handful of snow.

"Mad?" he inquired—"you hadn't ought to be! You wanted me to kiss you."

"They are always doing it in books. I wanted to see what it was like."

"It wasn't my fault. I didn't want to—much."

"You don't need to, again."

The boy colored resentfully. "A girl with red hair," he scoffed.

There was a pause, while the old gate wriggled in its bed of snow.

"Your mother coming home today?"

"Yep."

"You'll catch it for going through the ice."

"I expect so. . . . I had on my best jacket."

"The ice is always thin over the spring. Didn't you know that?"

The girl laughed. "What'd you think I was doing there, silly? It's no fun skating where it's thick!"

The boy looked at her with reluctant admiration. "You're a queer 'un," he remarked, as he kicked up a cloud of soft white snow. There seemed to be nothing to detain him, yet he lingered, and turned, on a sudden impulse. "Say," he said, "is it true that your mother is going to marry the minister?"

The girl's calm eyes kindled. "Who says so?" she demanded.

"Ma."

"Well, Peter—you can tell her that she doesn't know nothing—not nothing! That minister—he's so ugly—and my mother!"

The boy hesitated no longer but went on his way with an air of braggart relief. He had made a hard ball of his handful of snow, and now he flung it. He took up his whistle again, and his frosted breath rose in

a series of gay clouds above his red cap, while behind him Ann drooped on her gate. She hated the sanctimonious minister and his dreary black clothes. She wondered what she might do if her mother decided on this undesirable step, and dimly she perceived that she could do nothing; the fearful impotence of childhood weighed her down, and her queer little face clouded.

After a while the sound of sleigh bells floated across the frozen fields to her, and she brightened. They heralded her mother's return from New York city, a good seventy miles away, and she fixed eager eyes on the turn in the road; in a moment old General and the cutter rounded the big bare elm which overhung the schoolhouse at the four corners, and Ann leapt from the perch, transfigured by excitement.

"Ma is coming!" she screamed shrilly over her shoulder. "Ma is coming!"

The house door opened and a tall, spare woman appeared.

"Ma's here, Mrs. Allen—look!"

Mrs. Allen emerged and came down Ann's path, wrapped like a mummy in a dull-colored shawl.

"It is high time she came," she said.

"And she'll be cold—driving all the way over from Whartley township on a day like this."

Ann silently reviewed the past fortnight, and gloomily reflected that if cold her mother would probably be cross. The little girl shot a soft glance at her companion, ingratiating in every line of her; she hoped an account of her misdeeds would not immediately be offered—it was extraordinary how many things could go wrong in two weeks—but she had small expectation of anything so desirable happening.

And then, suddenly, she realized that the woman in the approaching sleigh had something foreign about her. Her pretty face, with its cheeks whipped a bright red by the cold wind, was the same, but there was a sort of flowing opulence in her appointments which made her seem alien. Ann thought that her mother had never looked so beautiful; her pale hair shone richly gold against a coat of black fur. Before she could spring to meet her, Mrs. Allen grasped her shoulder so hard that it hurt; as Ann wriggled free she caught an aghast murmur.

"My land—a sealskin sack!"

Suddenly affection for the pretty creature in the sleigh overcame Ann, and she plunged eagerly into the deep snow of the road, calling, unexpectedly to herself: "Ma! You'd never marry that old minister! Say, ma—would you?"

Her mother laughed, a gay thrill that brought two dimples into play, and showed a flash of white teeth. "No, Ann, never!" she called back, withdrawing her hand from a tiny muff she carried, in order to wave it gayly.

The cutter drew up before the cleared path, and Ann's mother stepped lightly out upon the firm snow that creaked under her feet. She

"You Look Homelier Than Ever."

leaned forward over her flowing skirts and kissed her daughter dimly; suddenly her radiant face clouded. "My Ann," she exclaimed, "you look homelier than ever." And she sighed fretfully as she stood looking at her.

Mrs. Allen intervened. "Minnie Byrne," she began sternly, "where did you get those clothes?" And catching sight of a necklace of seed pearls that hung lustreously in the opening of the sealskin sack, she paused, speechless.

"It's all right," the newcomer declared breathlessly. "You don't know what has happened to me."

Mrs. Allen continued to gaze at her with a severity which Ann suddenly realized partly masked a disquieting

fright. "Considering that you went to the city to see about investing the last two thousand dollars you had in the world, and have come back here all tricked out like this—I should say that you had lost your wits, Minnie Byrne."

"Well, I haven't. . . . I've spent a good part of the two thousand, though."

"I thought as much," Mrs. Allen observed.

"And that isn't all," the newcomer hurried on; "I've done something worse than that. . . . I've been married!"

This declaration was received in startled silence. Ann, strangled with an emotion that was half terror and half affection, yet somehow wholly protective, clung to her mother's nervous hand, while Mrs. Allen stared at her, white-faced.

Feeling the disapproval of her audience, the bride flung up a spirited head. "You are all ready to blame me, aren't you?" she demanded.

"Well—you wait until you hear whom I've married."

"I hope you have married someone who can care for you, Minnie, in a worldly way, as well as spiritually."

"I've married Hudson Cortlandt," she said, and laughed.

Even Ann knew this was a name to conjure with, and stared wide-eyed at her mother. Mrs. Allen leaped at a possible explanation. "Someone has been imposing on you!" she cried.

"No, it is true. . . . Why shouldn't he marry me?"

They went into the farm-house kitchen, frigid in spite of the tropical heat of the wood fire that leaped in the stove, and the cross-examination continued.

"How did you get to know him?"

Mrs. Cortlandt blushed. "Well," she said, "the first afternoon I was in New York I was walking in Union square, and I saw a fine gentleman ahead of me drop a wallet. Of course I picked it up, and there was his name—Hudson Cortlandt."

I had just read in the papers that President Pierce had appointed him minister to Switzerland, and I wanted to see how he looked. . . . I was glad I was the one to find it. I ran after him—and that was the beginning."

"What did he think of you, so free as that?"

Mrs. Cortlandt dimpled sweetly. "Well, he thought I was pretty," she said daintily. "And after he had thanked me, he walked on with me, and asked me my name, and if my husband were in New York, and I told him that Michael was dead, and then he took me back to the St. Nicholas hotel. He stayed to talk with me for a while, in the parlor. . . . When he went away he asked me to go driving with him the next afternoon, and almost every day after that he took me somewhere, and ten days later we were married!"

"It will be a change for you, Minnie—and for Ann."

Suddenly Mrs. Cortlandt's round blue eyes filled with miserable tears. "That is the worst of it!" she declared. "He doesn't know about Ann."

"What do you mean—he doesn't know?"

"Well, I didn't happen to mention her at first—and after—when I saw he fancied me—I thought I wouldn't tell him just then, and it was always like that. . . . I was afraid," she ended in a miserable whisper.

"And what do you intend to do now?"

"I shall take Ann back with me, and he'll see her. . . . He'll have to. . . . We are sailing for Europe next week."

Ann leaped to her feet, transfigured, but her mother looked at her resentfully. "Don't jump about, Ann," she said impatiently, and added, turning to Mrs. Allen: "If only she were pretty!"

And so it happened that the ducking of Ann's best coat in the mill-pond became an unimportant event, and it was not necessary for her to explain to an uncomprehending parent the allurements of skimming lightly over the surface of thin ice.

(Continued tomorrow)

CORE OF ROCK UNIQUE EXHIBIT AT OIL SHOW

(By the Associated Press)
TULSA, Okla.—A gigantic apple corer, which takes a core out of Earth's unyielding bosom as the center of the fruit—it sounds like one of the queer mechanisms which often haunt the nightmares of an otherwise unimaginative man.

Not only the corer, but the core itself, showing a record of thousands of feet of oil field strata, will be numbered among the unique displays at the International Petroleum Exposition and congress, to be held in Tulsa, October 8 to 14.

The great corer is a diamond drilling machine, used extensively through the oil fields to test out promising-looking acreage, for oil structure. A cylindrical instrument, tipped with eight diamonds, it is driven into the earth with a rotary motion, cutting out the rock as it descends. The arrangement of the strata is uncrushed and undisturbed, allowing the operator to read the whole story of the geological structure of the region.

The core which will be shown at the oil and gas show will be taken from the Burbank, Okla., oil field, and is of special interest because never before has a test been made of this extremely productive region.

In the commercial sections of the exposition will be shown several of the diamond drilling machines, with explanations of the manner in which they are operated.

SEEK OIL STORE IN WASTE LANDS

Government Tract in Alaska to be Scene of Federal Operations.

(By the Associated Press)

WASHINGTON, Aug. 11.—The last "mystery land" under the American flag, a vast stretch of mountain and plain in northwest Alaska, now is under exploration by the federal government.

The tract comprises some 35,000 square miles, and was set aside last February by President Harding as a naval oil reserve. Some traces of oil have been found on its borders, but for the most part its qualities and resources are a matter of speculation. The exploration recently begun is under the direction of six scientists of the Interior Department, whose primary task will be to investigate oil mining possibilities, but who in addition will make the first maps of the region ever drawn on scientific lines.

Four or five summers are to be consumed before the exploration is complete, but during the present season it is hoped to complete a preliminary reconnaissance and determine the location of the most promising oil fields. For this purpose the geologists and topographers and their camp hands have divided into three parties, in the hope that by this means most of the tract can be covered before winter begins.

The few facts known about the district are that it consists mainly of a flat and barren land near the sea-coast, a narrow strip of which has been visited by white men, and that in the south it includes a high barren range of mountains. It is bounded on the north and west by the Arctic Ocean, on the south by the Endicott Range, and on the east by the Colville river.

Whalers and a few other hardy adventurers have visited the coast and several small posts have been organized. Several oil companies have sent prospectors to look over the many oil seeps to be seen near the coast, but no legal claims of permits for exploitation of the resources have been granted. In places the surface oil is said to have been collected in small ponds and puddles and semi-solid tar residues have been reported.

Whether the federal government will undertake the development of the territory will be determined later. The working season would be so short, however, and the difficulties of drilling, storing and transportation so immense, that unless oil is discovered in great quantities leases will be granted to private firms.

Since the area is situated entirely within the Arctic Circle, not only would transportation distances be great, but the cold would prevent a working season of more than a few months each year. The department's men were unable to work until July because of ice conditions, and they will hardly be able to continue later than the middle of September.

M'CRAY OPPOSED TO FISTIC BOUT

Indiana Governor Puts Lid on Hope of Holding Wills-Dempsey Match.

(By the Associated Press)
Indianapolis, Aug. 11.—Indiana will never be the battle ground for pugilists of any prominence, at least during the administration of Governor Warren T. McCray. The project started by local fight enthusiasts as to the possibility of bringing Jack Dempsey, heavy-weight champion, and Harry Wills, negro challenger, here for a bout, promptly brought a statement from the governor to the effect that he was just as much opposed to prize fighting as when he ordered the cancellation of the Dempsey-Brennan match scheduled for Michigan City, Ind., Labor Day, 1922.

The peculiar Indiana law, which permits boxing bouts and forbids prize fighting, but makes no definition of either, leaves the question of permitting ring contests largely to the discretion of the authorities.

Gov. McCray, in the case of the Dempsey-Brennan match, held that the advance publicity made it clear that the match came under the category of prize fights.

Governor McCray holds that persons who desired to open the way for heavyweight bouts between fighters of international prominence had their opportunity to change the law at the last session of the legislature. This body having made no change, he declares he will stand firm against prize fighting.

Nearly every city of several thousand inhabitants in the state has its weekly boxing card in which fighters of little prominence participate. Occasionally the cards are accompanied by boxing matches in the light weight classes. The bouts are seldom for more than ten rounds with no decision.

Elementary education in England it is estimated, will cost \$165,000,000 during this year.

FARMERS UNION DELEGATES TO ATTEND CONVENTION

At a meeting of the Farmers Union here Saturday afternoon W. A. Peck, W. H. Summers and T. F. Beller were appointed as a committee to attend the state meeting of the Union in Shawnee on August 21, 22, and 23.

Mr. Beller says that all locals are urged to send delegates to this meeting.

The officials were well pleased with the result of the picnic held here several days ago.

No Bad After Effects--- Nothing to Injure One---

There are many kinds of enticing eats for hot weather. Some of these can be eaten safely only in hot weather and even then there is danger with some individuals.

Such is not the case with ice cream when it is made pure and made clean. It is wholly good and can be eaten any time, but is particularly appropriate for summer as it does not heat up the body and at the same time furnishes all of the food elements for physical and mental energy.

SANTA ICE CREAM is made of the most carefully selected ingredients. It is made and packed in sterilized containers. It is free from anything that can be injurious to the babe in arms or the old man past his three score and ten years.

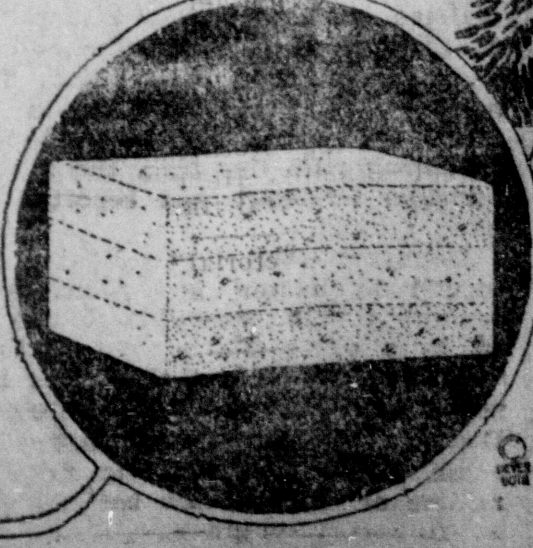

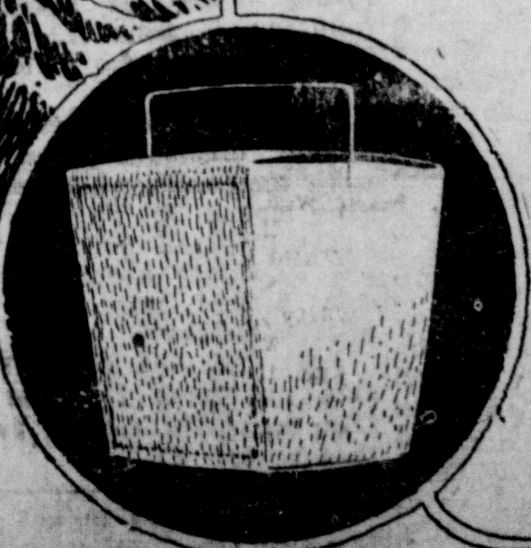

SANTA ICE CREAM IS MAKING ADA FAMOUS

Moter Sales Co. parts and accessories for all cars. 4-11-1f

Supt. J. E. Hickman is taking a brief vacation by visiting his father at Santa Anna, Texas.

Mr. and Mrs. Vivian Powers returned to their home in Okmulgee after a visit with relatives here.

Our Fall line of coats and dresses is the largest and most complete ever shown in Ada. The Fashion, 118 W. Main. 8-12-1t.

John L. Case and family have returned from an overland trip to the Texas coast and other points.

Judge J. W. Bolen and daughter, Celma, were visitors in Sulphur during the latter part of the week.

For prompt battery service Phone 2 7-15-1m*

Miss Hazel Evans of Hot Springs is spending a few days with her brother, Frank Evans and wife.

Misses Gladys and Chressie Luther have returned from a week's visit to Shawnee.

Dr. Ella D. Coltrane, Osteopath. 8-7-1mo.

Mrs. Jack Morris and Miss Lucile Backus motored to Sulphur yesterday.

A. J. Mansker, Frisco claim agent, was in the city yesterday morning.

All the latest styles all the best materials in Ladies Coats and Dresses at The Fashion, 118 W. Main. 8-12-1t

Mrs. J. R. Montgomery and children are visiting in Breckenridge Texas.

Mrs. W. V. Haynes returned Wednesday from Murphreesburg, Tenn., where she has been visiting with her son, Henry C. Brown.

Fall Quarterly patterns from Pictorial Review now ready. Needlecraft shop, 114 West Main. 8-12-1t

Mrs. E. C. Wilson left today for a visit with friends and relatives at Monett and Springfield, Missouri.

Verne Walters and Dr. S. P. Ross returned from their vacation in Colorado and other points in the state.

Dr. Shannon, Osteopathic Physician, phones: Office 51—Res. 718-R 7-16-1mo

Burl Edwards, for a time a student at the college last year, arrived yesterday for a visit with C. A. Cummins of this city.

Mrs. Bob Germain and twins motored to Frisco Friday and spent the night with Mrs. R. S. Lucas and family.

Our new Fall Slippers are the best yet in the new short vamp in beige, suede, kid and satin. The Fashion, 118 W. Main. 8-12-1t

Miss Topsy Roberts, daughter of Dr. and Mrs. H. L. Roberts of Frederick, returned to her home Saturday after a visit with Miss Elsie Hester, 712 East Thirteenth street.

McCarty Bros. Can fix that old tire or tube. Phone 855. 116-18 S. Townsend. 7-7-1f

Mrs. John Agnew, Mrs. I. E. Riddle and Miss Helen Webb left Saturday for a two-weeks vacation in Colorado Springs, Denver and other Colorado points.

We buy second hand furniture. Shelton Furniture Co., phone 438.

Mrs. Eva Mills, who has been visiting her parents, Mr. and Mrs. Jim Baze, left Saturday morning for Franklin, Nebraska, to join her husband there.

New Fall and Winter Suits in Flamingo, Lustrine, Duvyette, and many others. See them at the Fashion, 118 W. Main. 8-12-1t

C. W. Chilcutt of Elmwood, Tenn., came in Saturday to spend some time with his brother, L. S. Chilcutt and family. He has visited in this section several times previously.

Get your Pictorial Review pattern, fall quarter, at the Needlecraft Shop, 114 West Main. 8-12-1t

Misses Fannie Byrd Fuller and Cecil Smith of West Seventh street left Saturday morning for Henryetta and Okmulgee where they will join a party for a camping trip on the Illinois river in the northeastern part of the state.

LACE, RIBBON—DAINTY FROCK

The dainty frock pictured is one of the sleeveless models of white georgette crepe. The front is accented with pleated and three wide tucks adorn the side panels of the skirt.

We buy second hand furniture, paying best prices. Phone 438 Shelton Furniture Co. 11-9-1t

Mrs. J. C. Meaders and daughter Laura Belle of McAlester with a party of young people of their city, chaperoned by Mrs. Meaders, passed through Ada Saturday enroute to Sulphur for the week end.

We have the celebrated line of F. A. Patrick in golf sweaters and hose. The Fashion, 118 W. Main. 8-12-1t

Pete Rollow returned Friday afternoon from Colorado Springs where he visited his wife, father, mother and brother. He reports Mrs. Rollow as doing as well as could be expected. His brother, Floyd, is improving.

Crack case not only drained but washed free. A-1 Filling Station.

Mrs. E. A. MacMillan leaves today on a vacation trip of two months. She will first visit her daughter, Mrs. Jack Moulder at Beggs and then go to Oklahoma City, thence to Ft. Leavenworth, Kansas, where she will visit her nephew, Col. Robinson and family.

Nu-Age is a wonderful Dandruff cure. Stops falling hair, itching scalp and actually grows new hair. Money back. Satisfaction guaranteed. Sold at all druggists 7-23-1f.

Dr. and Mrs. S. P. Ross returned Friday night from Denver, Colorado Springs, Estes Park and other places in the Rockies. They were joined in Oklahoma City on their way out by Mr. and Mrs. Phillip Thompson and daughter. Coming back, they came by way of Raton, Amarillo, Childress and Wichita Falls. The doctor says it was the greatest outing he has ever had and feels fifty percent better. Vernon Walters made the trip with them.

NEIGHBORHOOD OF HULL HOUSE LOSING IDENTITY

(By the Associated Press)

CHICAGO, Aug. 11.—The neighborhood of Hull House, for 30 years the center of Miss Jane Addams' work among the foreign population of Chicago, is changing rapidly, according to the staff at Hull House and officers of the Chicago Urban League. This time the new comers are negroes, thought to be moving from other sections of the city and southern states.

The population of the South Halstead street district has changed considerably since the establishment of the settlement by Jane Addams in 1889, workers there say. As one group becomes more prosperous, it moves into less crowded quarters of the city. Early canvasses made of the district show large numbers of Italians, Greeks and a sprinkling of Irish. Greeks and Italians are still in the majority, although Hull House has in the last decade been offering hospitality to large numbers of immigrant Jews and to a small colony of gypsies who are making their home there.

When Hull House, one of the pioneer settlement houses in the United States, was established, Miss Addams threw open her doors to the community and founded a neighborhood gathering place as a democratic institution. Everybody was welcomed, regardless of nationality, in friendly spirit. An effort has been made at all times to persuade the various nationalities to cooperate in the life of the community.

Cuba's only factory for the manufacture of cotton hosiery and undershirts is idle because of foreign competition.

CHURCH NOTES

First Christian Church. "The Friendly Church." 216 S. Broadway. Men's Bible class, Chamber Commerce room, 9:30 a. m. Bible school at the church 9:30 a. m.

Morning worship and communion 11 a. m.

Evening service 8 p. m. The public is urged to attend all these services, and the membership is humbly invited to be at your place in the work of the church.

First Baptist Church. Sunday school will begin at our church today at 9:45. We are exceeding anxious for a good attendance today. We had four hundred fifty present last Sunday in our school proper beside those at the West Mission. This is a splendid attendance considering the awfully warm weather.

The Men's Bible Class will meet at the McSwain theatre at 9:45. They invite all men to come and be with them regardless of religious belief, who are not attending Sunday school elsewhere.

The regular morning service will be held at the church at eleven o'clock. The pastor will preach. The B. Y. P. U. will meet at 7 o'clock. All the young people are invited to be present.

The evening service will begin at eight o'clock. The pastor will preach an evangelistic sermon. The ordinance of baptism will be administered at the close of the service. Let those who are awaiting baptism please come prepared for the ordinance.

CLYDE CALHOUN MORRIS, Pastor.

Presbyterian-Methodist Union. A cordial invitation is extended to all to join in the Union services at the Methodist church 11 a. m. No Sunday night services at either the Presbyterian or Methodist church during the month of August. Bible school at the usual hour at both churches.

Come sing with us the old songs and enjoy a short gospel sermon. "The poor have the gospel preached to them," will be the text.

Yours to serve, E. O. WHITWELL, Minister.

Asbury M. E. Church

Sunday school at 9:45 a. m.

Preaching at 11:00 a. m. by the pastor.

Epworth League—7:30 p. m., leader, Ervin Bonner.

Preaching at 8:15 p. m. Everyone welcome.

Reporter.

Senior B. Y. P. U. First Baptist.

Subject—Following Jesus. Leader—Zuelka Burkhardt.

Introduction—Leader.

1 The Christian's Equipment—Lillie Wauson.

2 The precious Promise—Lula Branscome.

3 The Christian's Addition Table—Barnett McCollum.

4 Fruitfulness—Anna Lee Bolton.

5 Summary—Thelma Nolan.

7 Last Days Foretold—Inez Cumby.

W. B. M. S.

The Woman's Missionary Society of the Baptist church will meet in Circles next Monday afternoon as follows:

No. 2—Mrs. Skirvin's, South Stockton.

No. 3—Mrs. Mont Emory.

No. 5—Mrs. Granville Montgomery.

No. 6—Mrs. O. F. Davidson.

No. 7—Mrs. W. A. Blanton.

A number of our members are out of town. Quite a few at the assembly, yet we deem it advisable to hold all meetings. The greater the efforts to carry on the Lord's work the more numerous the blessings.

MRS. DEERING, President.

Young People's Meeting

(Church of Christ 7:45)

Subject: Walking in the Light.

Leader—Denton Floyd.

Bible Story by—Thelma Young.

Why does Christ say it is necessary to walk in the light?—Otis Floyd.

What benefits do they receive who obey this command?—Callie Britt.

From what does this light come?—Nolan Hall.

What becomes of it when not used aright?—Juanita Edmiston.

Why do some people prefer darkness?—Bennie Shipman.

What will they do who love the truth?—Opal Frost.

All Young people are invited to attend.

Loyalty.

By Clara McCulloch

(Writer and composer of "The Value of a Smile.")

Loyalty is a word we often hear.

But in practice we are slow

To use it more in all our deeds—

A great world we would know.

Loyalty to God and our fellowmen

Means riches to us untold.

For wealth may take its wings and fly.

While loyalty outshines gold.

Loyalty should be first and last

With us.

And it can be if we try

To use it as a ruling power.

All money cannot buy.

Loyalty in all that we do and dare

Will make us a world of peace,

In which we'll never have a fear

That happiness may cease.

USEFUL DOLMAN STILL FAVORITE

The wrappy cape or dolman is still a prime favorite for fall wear. This model is made of chinchilla, tan in color and box-embossed. The shawl collar is unusually large.

FOREIGN DEMAND FOR FORD GROWS

Business conditions on trend To stability in small European nations

(By the Associated Press)

DETROIT, Mich., Aug. 11.—Increasing predominance of the Ford in Syria, improved exchange in Greece, which is materially aiding business, and a growing demand in Yugoslavia and Czechoslovakia are notable features indicating more stable conditions among smaller European countries as shown by Ford foreign sales, which for the first six months of the present year exceeded by nearly 100 per cent those of the same period a year ago.

The British Isles, Scandinavian countries and the Argentine, in the order named, gave the largest volume of business, while the greatest increases during the first half of this year were in Scandinavia and the Argentine.

Notable, too, is the great improvement in business conditions and consequently automobile sales, in Australia, New Zealand and South Africa.

A comparison of the retail delivery figures for the first half of 1923 with those of the first six months of the two previous years shows the steadily growing demand for Ford cars and trucks abroad.

This six-month table, which includes export sales of the Ford Motor company and the Canadian Ford company as well, follows:

1923	95,087
1922	48,707
1921	26,368

And the increasing demand for Ford products extends to the Fordson tractor also, sales of which during the first six months of 1923 were more than 100 per cent greater than those of the same months last year.

The following figures show Fordson sales abroad for the first six months of the last three years:

1923	5,034
1922	2,348
1921	723

OBITUARY

The funeral services of Mrs. Myrtle Burnham, better known here as Miss Myrtle Stephens, will be held from Criswell & Myers parlors today at 1 o'clock, Rev. C. C. Morris in charge. The body will be brought from Wilson where death occurred Friday about noon. The deceased was reared in the Union Valley community and received her training at East Central.

Seeks More Policewomen

(By the Associated Press)

LONDON.—Having won her fight for the non-sale of alcohol to minors, Lady Astor is now urging the British government to appoint more women "policemen". Speaking recently in the House of Commons on the salaries of the metropolitan police force, she declared the present force of women was totally inadequate.

Viscountess Astor said more women police were needed in London for patrol duty, and she appealed to the Home Secretary to increase their number and widen their authority.

Buy it—rent it—sell it—find it with a NBWS want ad.

SWIMMING PARTY FOR MISS BARRY OF DALLAS

Dr. and Mrs. M. L. Lewis entertained with a swimming party and picnic dinner Friday evening at Byrd's Mill complimentary to Miss Barry of Dallas, sister of Mrs. Lewis.

HOME DEMONSTRATION CLUBS ENTERTAINED AT CITY PARK.

Thirty-two girls from Homer and Latta schools were entertained by Mrs. Jesse Duvall, county Demonstration agent at Glenwood Park yesterday afternoon. The girls met at the Chamber of Commerce rooms and were escorted by Mrs. Duvall to the Park. This was a social and demonstration event combined. Miss Ruth Wood of Latta told about her trip to the farm congress held at Stillwater and Miss Vera Simmons of Latta gave a brief account of her trip to the state fair. Miss McCarty, teacher of domestic science and art at Latta, talked on cooperation between club work and school work. Games were played and refreshments consisting of ice cream and cookies were served.

Bergdoll is safe Again; Attempt to Take life failed

(By the Associated Press)

EBERBACH, Baden, Aug. 11.—Grover Cleveland Bergdoll, the American draft evader, shot down and killed one man and wounded another last night when men concealed in his hotel apartment seized him in a kidnapping attempt.

Two other men waiting outside in an old army automobile with an American shield on the side were arrested after being menaced by a crowd. The German authorities said one was an American army lieutenant and the other a Russian prince.

Both of Bergdoll's assailants were identified as Frenchmen in the service of the American. Bergdoll said the men seized him but that he succeeded in breaking free and then drew a revolver and fired.

Pigeons on Waiting Orders

(By the Associated Press)

WASHINGTON.—Radio and all other modern methods of communication have not succeeded in ousting the carrier pigeon from its position as an important factor in the war time transmission of intelligence.

The American army maintains 1,400 birds along the Mexican border, in Hawaii, in the Canal Zone, and otherwise distributed at some

BIBLE THOUGHT FOR TODAY

SUFFICIENCY:—Our sufficiency is of God.—2 Cor. 3:5.

THE BALLOT IS SUFFICIENT

Talk of revolution in America is folly. Banish the expression, the idea. Where there is a free ballot, revolutions are useless, criminal. This idea was expressed by Arthur Brisbane a few days ago. While we do not agree with a great many of the ideas expressed by Brisbane, he is original and interesting. Draw your own conclusion. Here is what he says:

"There is more talk than is necessary about revolution in the United States. Magnus Johnson, of Minnesota, thinks revolutions of the Russian style might come.

"And Woodrow Wilson takes the trouble to write an article on 'The Road Away from Revolution.'

"Revolutions come after unsuccessful wars, and in countries where the people have no vote.

"In the United States the people do vote. If they can't settle their problems by thinking and voting, could they do it by shooting and hanging each other in revolution? Hardly.

"Magnus Johnson has just carried thru a successful ballot revolution beating Republicans and Democrats in Minnesota with 90,000 votes to spare. What makes him talk about revolution of the Russian kind? With the vote, the law of eminent domain, and power to amend the constitution, the people can do what they please.

"Why encourage unbalanced minds by discussing and suggesting revolution in a country that is just learning to use the ballot?

"Some of the politicians are agitated by Woodrow Wilson's essay on revolution—religious—spiritual bid for a presidential nomination. The same politicians are disturbed about LaFollette who says he will start a third party if a reactionary is nominated. There isn't much doubt that LaFollette has power to kill the Republican party in 1924. You are going to see a very mixed up election.

"You are not, however, going to see any revolution or anything like it. In the first place, as Mr. Magnus Johnson should know, farmers never start revolutions. They fight against them. Occasionally they have revolutions forced upon them and accept the situation when they find that it means giving them land formerly owned by the nobles as in France and Russia.

"Mechanics don't start a revolution when they are making from \$10 to \$20 a day. Rough labor in cities doesn't start a revolution when the lowest wage paid a hod carrier is \$7 a day.

"What is needed in the United States is less foolish talk and more definite action to dispose of various pressing problems. If mine owners and workers refuse to agree, regardless of the public welfare and need of coal, there should be some one in the government with brains and energy enough to operate the mines and distribute the coal. It doesn't take a revolution to do that, only common sense.

"If the low price of wheat is so serious, that could be arranged, without a revolution.

"In war time the government said to the farmers, 'you can't have more than \$2.25 for your wheat,' when the farmer might have had \$4 or \$5.50.

"Why can't the same government in peace time say to the farmer, 'you shall have at least \$1.25 for your wheat?'

"Paternalism? Socialism? Not at all.

"A government that could spend 50,000 millions in one year to help settle the troubles of Europe in war, should spend what is necessary to settle its own troubles in peace."

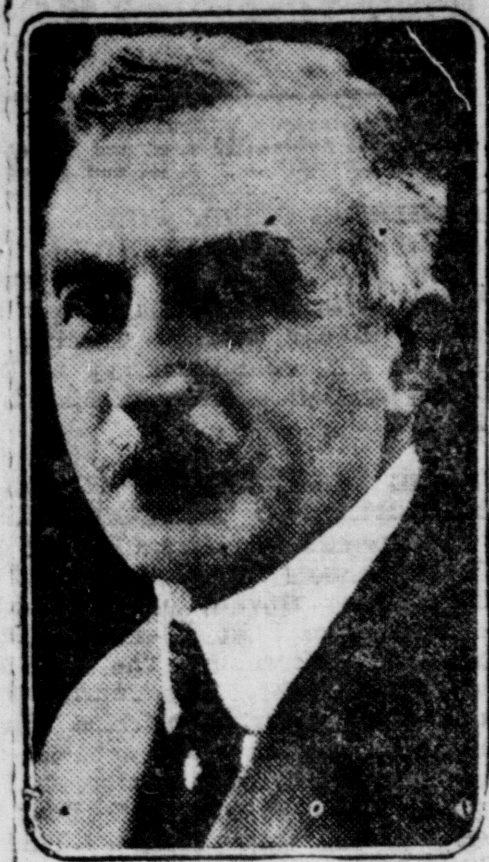

HOWLED TOO LATE.

We would think a great deal more of the Oklahoma Leader's protest against tainted money in political campaigns if its protest had been lifted against such contributions when they were being made and spent during the campaign in question. We refuse to become unduly exercised over the vehement indignation of a newspaper that knew that this slush fund was being collected, knew that it was being spent to insure the nomination of the Leader's own chosen candidate, knew that thousands of dollars were being received by the Leader itself, yet failed to register a single protest until a split in political circles convinced the Leader that it had received its last contribution from sources of alleged corruption. It would seem that the Leader's conscience never made the slightest stir until it saw its chief source of revenue disappearing.—Holdenville Democrat.

Well, yes, it is a trifle inconsistent for the Leader to make a howl about this slush fund only after it has been cut loose from the trough. Slush money was as good as any other as long as the Leader got its share, but now with this gone it is amusing to hear how indignant that paper has become about the source of this money.

An Ada newspaper records that the barbers are in the "dumps." Ada has been enjoying the presence of several thousand school teachers who were there attending normal school during the summer. It appears there was a large percentage of "flappers" among these teachers and they had their head set on bobbed hair. This gave the barbers a lot of extra business and a lot of interesting customers. Now the teachers have left Ada and the barbers feel like going out of business.—Okmulgee Democrat.

HE'S "GODFATHER" OF U. S. STUDENTS IN PARIS SCHOOLS

Fermin Roz.

Fermin Roz, writer of note, has won the title of "Godfather of American Students" in Paris universities by his generosity in aiding struggling American writers there.

TULSA LEADS IN VALUATION LIST

Equalization Board Reports Show Oil City Leading Property Valuation.

(By the Associated Press)
OKLAHOMA CITY, Okla., Aug. 11.—Tulsa county exceeds Oklahoma county and leads the state in valuation of its land for 1923, reports from all counties in Oklahoma except McCurtain made to the state board of equalization, show.

Tulsa county's total valuation was given at \$129,628,240, nearly a million dollars more than the estimated worth of Oklahoma, the second county. Oklahoma county's valuation was reported as \$128,633,000.31. The figures were presented as part of a report at the state board of equalization meeting this week.

In average land valuation there were three counties leading the state by a generous margin and Tulsa topped the nearest rival with ease. For state, county and other taxation purposes, the average acre of land in Tulsa county is worth \$43.83. Kay county, with Ponca City and Blackwell as the leading cities ranks second in valuation with \$39.82. Garfield county of which Enid is the principal city was placed third with each acre estimated at \$36.88.

Pushmataha county, in southeastern Oklahoma, was the poorest county in land wealth in the state, according to the state equalization board's figures. The average acre in Pushmataha county is worth \$4.84. Commissioners' reports show, LeFlore and Latimer counties also rank low in valuations, the average land valuation in the former county being \$6.87 and in the latter \$6.76.

Total valuations of some of the leading counties were given as:
Tulsa \$129,628,240
Oklahoma \$128,633,000
Muskogee 48,837,049
Garfield 40,567,763
Osage 40,049,871
Okmulgee 39,614,850
Kay 34,418,619
Washington 27,127,950
Ottawa 10,996,877

The average land valuations by counties as given follows in part: Tulsa, \$43.83; Kay, \$39.82; Garfield, \$36.88; Muskogee, \$30.29; Oklahoma, \$29.78; Okmulgee, \$25.67; Washington, \$21.45; Ottawa, \$18.70; Pittsburg, \$9.60; Osage, \$9.30; Cimarron, \$7.38; and Pushmataha, \$4.84.

BARTHELMLESS INTRODUCES NEW HERO TO SCREEN

Ever hear of a motion picture hero who engages in a duel and loses it?—who participates in a death grapple with another fellow and does not "get" his man, though the latter drops dead from heart failure?—who makes love to a beautiful woman and at the same time remains true to his real sweetheart?—and who, despite all these things, still remains a hero?

We guess not. And yet this is the entirely different sort of hero that Richard Barthelmess is introducing on the screen tomorrow night at the McSwain theatre in his delineation of Charles Abbott in "The Bright Shawl," the John S. Robertson production, adapted from Joseph Hergesheimer's gripping romance of Cuba in the days before it overthrew the yoke of Spanish tyranny.

Barthelmess, if all reports are to be believed, is a mighty convincing and realistic hero at that. Also, a very much beloved one.

And, as the young American who has thrown himself in on the side of the Cuban rebels, he is mightily admired for his tremendous courage and audacity even by the officers of the Spanish crown, despite the fact that he is a novice as a swordsman.

Romance? He falls in love with the fairest daughter of a fine Cuban family; but he also pretends to be infatuated with a beautiful Span-

Talk of Third Party is Cause For Concern Shown By Political Investigators

(By the Associated Press)
WASHINGTON, Aug. 11.—With rumors of a third party movement thickening the political atmosphere, Republican and Democratic politicians are figuring on what might happen should a presidential free-for-all next year result in a deadlock in the Electoral College.

One surprising deduction is the remote possibility, conditioned on many an "if" and "and," that Vice President Coolidge might eventually be called upon to cast the deciding vote to determine whether he himself should step in to the presidency.

Still beyond that lies the chance however far removed from the realms of probability, that whoever is secretary of state on March 4, 1925, may automatically become president without a single vote being cast for him in any state or in any part of the governmental mechanism.

Here is the language of the constitution, upon which these freak possibilities are predicated:

"The person having the greatest number of votes for president (in the Electoral College) shall be president, if such number be a majority of the whole number of electors appointed, and if no person have such majority then from the persons having the highest numbers, not exceeding three, on the list of those voted for as president, the House of Representatives shall choose, immediately, by ballot, for president.

"But in choosing the president the votes shall be taken by states the representation from each state having one vote, and a majority of all the states shall be necessary to a choice. And if the House of Representatives shall not choose a president whenever the right of choice shall devolve upon them before the fourth day of March following, then the vice-president shall act as president.

"The person having the greatest number of votes as vice-president shall be the vice-president, if such number be a majority of the whole number of electors appointed, and if no person have a majority, then from the two highest numbers on the list the Senate shall choose a vice-president."

Thus, say the political puzzle-sharks, if a three-cornered fight next year splits the electoral vote into segments each smaller than a majority, the House must make a try at it. But in the House as it now is constituted, and as it will remain except for deaths and resignations up to March 4, 1925, neither the Republicans nor the Democrats can control a majority of the state delegations. With one vote allotted to a state, twenty-three states would vote Republican, twenty states Democratic, and five—Maryland, Nebraska, New Hampshire, Montana and New Jersey—having delegations evenly divided between

ish dancer—to gain valuable information for the rebels.

Fight? He crosses swords with the most expert swordsman in Cuba fights until he drops from utter exhaustion, and is so greatly respected by his enemy that his life is saved.

As a photodrama, "The Bright Shawl," presented by Inspiration Pictures, Inc., through Associated First National Pictures, will eclipse even the popularity the story achieved in magazine and book.

the two parties, presumably would not be able to vote at all.

That, in turn, would seem to fulfill the contingency described in the constitution as requiring the vice-president to become president. But with the Electoral College deadlocked, it first would be the duty of the Senate to choose a vice-president. And in case of a tie, Vice-President Coolidge would have the deciding voice.

SAUNDERS TO CALL IN PIGGLY WIGGLY OWNERS

(By the Associated Press)
MEMPHIS, Aug. 11.—Clarence Saunders, president of Piggly-Wiggly Stores, Incorporated, announced today that a meeting of members of the recent Piggly-Wiggly "pool" will be held here Monday at which it will be determined whether he will continue in control of the Piggly-Wiggly stores organization, or resign.

What to Take for CONSTIPATION

Take a good dose of Carter's Little Liver Pills—then take 2 or 3 for a few nights after. They cleanse your system of all waste matter and regulate your bowels. Mild—as easy to take as sugar. Genuine bear signature—Small Pill. Small Dose. Small Price.

There is Real Economy in the use of

Electrical Appliances

Many people have gotten the idea that the operation of various electrical appliances in the home is expensive. This is not the case. Many of them are operated at a power cost of less than one cent per hour.

Where can such a dependable servant be had for even may times that figure?

Not only in money saving are Electrical Appliances economical, but even more so in time and effort. The routine tasks of the housewife require many extra minutes that can be saved if the tasks are preformed electrically.

We can tell you exactly what your operating cost will be for any appliance. Let us demonstrate it right in your own home and you'll judge for yourself the time and money they will save.

Ruth Pushes Heilmann; Hornsby Widens Steps in Safe Lead in Nationals

(By the Associated Press)
CHICAGO, August 11.—"Babe" Ruth of the New York Yankees and Harry Heilmann of the Detroit Tigers, have become virtually deadlocked in the race for batting honors of the American League, according to figures released today and which include games of last Wednesday. The two leaders are running neck and neck, at one time during the week there being only a fractional difference between them. Ruth has participated in 162 games while Heilmann has played in only 92, the Detroit star being out in front with a mark of .391 while the Yankee slugger is hitting .390. Carried to four points, Heilmann's mark is .3905 plus, and that of Ruth .3896 plus.

In addition to his rapid advance among the batters, Ruth has passed the century mark in the matter of runs scored, having registered his 100th and 101st runs last Wednesday. He is the first of the major league players to accomplish this feat this season. Ruth also cracked out a brace of home runs, which brought his total to 27, just two behind "Cy" Williams, his National League rival. Babe ran his total base record to 260, which, besides his circuit blows his 136 hits include 27 doubles and 8 triples.

Kenneth Williams of the St. Louis Americans is making a strenuous effort to catch Ruth in the race for home runs. He annexed his 21st on Wednesday.

Eddie Collins, of the Chicago White Sox, continues to stretch his stolen base record and sacrifice hit mark, so that he always has a comfortable lead over his rivals. He has stolen 31 bases and made a like number of sacrifices.

Other leading batters: Jamieson, Cleveland, .359; Jamieson, Cleveland, .357; J. Sewell, Cleveland, .353; E. Collins, Chicago, .351; Williams, St. Louis, .339; Witt, New York, .336; Cobb, Detroit, .335; J. Harris, Boston, .334; Burns, Boston, .332.

Two St. Louis players are showing the way to the batters in the National League, with Rogers Hornsby, star second sacker at the head of the list with an average of .404. Zach Wheat of Brooklyn is trailing Hornsby, with an average of .382, but as he is out of the game, Bottomly, of the Cardinals is the one who is pushing Hornsby, his average being .367. Big Jack Gournier, the former Cardinal, now with Brooklyn, is next with .364.

Frank Frisch of New York, with 156 hits, including 22 doubles, nine triples and five homers, is leading in total bases with 223. Pep Young, a teammate, is the best run getter with 90 tallies, to his credit.

age of .364 is next. McDowell of Wichita has gone into a tie with Davis of Tulsa for home run.

L. Smith of Wichita continues to run wild on the base lines and is far out in front. His record is 40, Felber of Oklahoma City being his closest rival with 26.

Blakesley of Wichita and Davis have gone into a tie for runs scored, each having attained the century mark. Blakesley, however, is leading in total bases with .287.

Other leading batters: Corriden, Des Moines, .360; Blakesley, Wichita, .356; C. McDowell, Wichita, .356; Young, New York, .362; Grimm, Pittsburgh, .342; Hollocher, Chicago, .342; Southworth, Boston, .339; Johnston, Brooklyn, .335; Barnhart, Pittsburgh, .331; Hargrave, Cincinnati, .325; Henline, Philadelphia, .325; McInnis, Boston, .320; Williams, Philadelphia, .320.

Carl East, star batter of the Minneapolis club has stepped to the top of the ladder, in the three cornered race for batting honors in the American Association. Terry, the new pilot of the Toledo club is playing second fiddle and Lamar, another Mud hen, is comfortably resting in the third place. East is hitting at a .403 clip, with Terry, .399 and Lamar .392.

Combs of Louisville and Brief of Kansas City, have been coming strong and now are threatening to join the race at the top. Combs is hitting .385 and Brief .379.

Brief having passed the century mark in scoring, has registered his 107th run. In making 147 hits, he has listed 24 homers which is more than any other player in the league. He also has poled 30 doubles and 10 triples and is leading the league in total bases with 269.

The race for base stealing honors being waged by Eddie Murphy of Columbus and Cooney of Milwaukee continues close, with the Milwaukee speedster blazing the way with 33, while the fast traveling Columbus star is trailing with 32.

Other leading batters: J. Smith, Toledo, .355; Brown, Indianapolis, .354; E. Murphy, Columbus, .353; Good, Kansas City, .347; Christenbury, Indianapolis, .341; G. Wright, Kansas City, .341; Roth, Kansas City, .339; Griffin, Milwaukee, .337; Cruz, Minneapolis, .329; Haas, St. Paul, .326; Krueger, Indianapolis, .325.

Smiling Jack Leivelt of the Tulsa club was very much the star of the Western League, during the past week. The veteran who is piloting the Tulsa club went on a batting rampage and moved up from eleventh to fourth position among the regulars who have participated in 65 or more games. Horan of Des Moines is the leader with an average of .387, although Pitcher Yde of Oklahoma City has a mark of .383 for 60 games. Bauman of Tulsa is trailing Horan with .386 and Palmer of Sioux City is next with .367 while Leivelt with an aver-

ing department, having pilfered his 45th base. Neun of Birmingham is trailing him with 38. Cuyler also increased his lead as a run getter to 86 and his total base mark to 216. Other leading batters: Cueto, Mobile, .326; Smith, Little Rock, .324; Cuyler, Nashville, .323; Leonard, Chattanooga, .323; S. Clarke, Birmingham, .322; Guyon, Atlanta, .322; Tucker, New Orleans, .320; Padgett, Memphis, .320.

TWO KILLED, TWO DEAD FROM TRAIN ACCIDENT

(By the Associated Press)
CALEXICO, Cal., Aug. 11.—Two men were instantly killed, two others died from their injuries, and three more are believed to have been fatally hurt at Indio, California, today by the shifting of a carload of steel pipe. None of the dead or injured have been identified. The men are said to have been riding at one end of the car when the load shifted, crushing them.

Boy Scout News

By Harry Miller

"Gim'me just one quart of good old Byrd's Mill spring water and they can have all the drinking water that there is down in the Kiamichi mountains was about the way the majority of the boys and men expressed their feelings, who were on this camping trip. In other words good drinking water was at a premium and as for ice cream chocolate sodas which Alfred Vaden said he had to have every day, along with his bacon and eggs for breakfast and his "T-bone steaks for dinner," they were absent for the simple reason that they were not to be had except at much expense. However, every boy had plenty of pork and beans, salmon as John the cook would say, hominy corn, tomatoes, peas, friend onions and potatoes, bacon, chili, peaches, apricots, pineapples and chickens. However, no boy would say that he had all the chicken nor all of the pineapples nor all of the cookies for they were articles which disappeared in the night.

But as for primitive forests of massive and high pine and red gum trees, for denseness of foliage mountains and beautiful water scenes along the Kiamichi river and Pine creek, for the song of the owls at night, and tales of seven-foot rattlers, deer, and wild turkey, and of the prowess of many of Ada's fishermen, for plenty of opportunity for all who were on the trip to see God's great out of doors as he left it, the Kiamichi mountains have all of it and much more. It was a wonderful trip and every boy would have come back without a murmur concerning the eats, if we had not had our regrettable accident in Linn Cales having his arm broken. But Linn Cales was the fine hero of our trip and he proved himself a real scout and gentlemanly sportsman of the highest type and revealed himself to be one of Ada's marriest boys. As for Mr. Clarence Cales, his father too much cannot be said of him as the prince of campers. He killed squirrels for us, and being a born forester took every boy was about to go with him and showed him the many different kinds of trees growing in the Kiamichi. Scoutmaster Roy Meek did all that he possibly could to see that everything went well in the camp and many of the boys caught his fine spirit. Ayton Strickland fished night and day to catch a mess of fish for the camp so that we might have something to relieve the monotony of eating pork and beans so often and so that he might have some thrilling tales to tell about the wonderful fish that swim around in the Kiamichi river which you can see but which you can't catch in August.

There is one thing sure a boy remarked in camp, if there is a lazy bone in his body we couldn't find it for he was willing to do his full part in camp. The boys worked as hard as they should on this trip at their scout work. Hugh Lawyer, Haskell McManus, Bill Mackin finished up their requirements for first class rank with few exceptions which they will work off at home. Donald Montgomery, Harvey Shipman, Harrison Meaders, Wayne Wadlington, Jr., Harvey Shipman were recognized for earning merit badges. Bartley Meaders was our bugler and he did it exceptionally well and he liked his job very much for it relieved him of Kitchen Police duty. Vernon Witcher attended to the flag morning and night.

N. T. Heard Jr., was voted to be the best camper with Linn Cales, Brown Mackin, Wayne Wadlington Jr., receiving honorable mention. Chas. McNew voted unanimously for himself as having the biggest appetite but Simon Kilcrease claims that he would have won it if he had not gotten hurt in the eye with a rope which knocked him out on the last day.

All were mighty glad to see Mr. W. J. Coffman, and his father, and J.M. Stanley Dean, John Chapman, J. W. Brown, and Wylie, A. E. Collins, Harry Kaiser, Henry Stuckey, Clarence West from time to time and their visits to our camp helped to remind us that we were among friends and that Ada was not very far off.

When we were nearing camp we had a most unfortunate accident. We had just gotten to the last bad place in the road and were within one block of our camping place when Linn Cales broke his arm while cranking the Ford truck so kindly loaned us by Mr. Dill Coleman. We immediately rendered him first aid, flagged one of the Frisco's fastest passenger trains put him on it and took him to Antlers and had it set and we all returned to camp the same night. Owing to the fact that Linn had driven the truck all night and day without rest and that his accident was done in the line of duty and service for us all, and that he suffered more than any of us, it was decided by every man and boy on the trip that all the expense for setting the arm and transportation should be borne by the camp.

To every wholesale grocer who gave liberally for this trip, to Ayton Strickland, Harvey Faust, Clarence Cales, Alfred Vaden, who helped us with the transportation, to every oil company who gave us liberally of oil and gas for the trip, to Mr. Dill Coleman for his Ford truck, above all to President A. Linscheid for the loan of the big cars, the troop voted thanks and tendered the same to be published in the News.

Below is a statement of the cost of the trip.

DENIES GUILT IN HUSBAND'S DEATH

Mrs. Fred Oesterreich sewing in her jail cell.

Recent developments in the hunt for the slayer of Fred Oesterreich, wealthy Los Angeles manufacturer, caused the detention of his wife, Mrs. Oesterreich, in her cell in Los Angeles, stoutly denies any knowledge of the crime. She sews most of the time. Her husband was slain last August.

Received from 29 boys \$3.20 each, \$92.80. Special collection from men and boys, \$13.93. Total of \$106.73.

Expenditures: For groceries bought other than those given by wholesale grocers \$40.72; gas and oil purchased other than that given by Ada Oil companies, \$29.49; first aid supplies, \$2.20; ice cream purchased at Atoka \$4.50; Johnnie Walker, cook, \$10.50; cost of accident to Linn Cales, doctor's fees medicine, transportation \$36.82; \$15.00 of this paid by personal check by Harry W. Miller that we might have cash for gas enroute home; loss of equipment loaned by National Guard (estimated) \$3.50; spark plugs, \$1.50; incidentals \$1.58; total of \$130.80.

Groceries left over and checked by Clifford Elliott \$5.50; cash on hand due to check being given by scout executive \$4.70; total \$10.20. Receipts from men and boys \$106.73. Groceries and cash \$10.20, total \$116.93. Total expenditures \$130.81. Total deficit which will be met by Boy Scout council \$13.88. This statement has been carefully checked by Roy Meek scoutmaster and the scout executive and is signed by same.

Troop No. 9, scoutmaster Mr. U. C. Dixon, hiked to Rock crossing Tuesday night had a fine swim and a good time. This is the kind of work which the boys like and appreciate.

Troop No. 7 Clyde Alletag scoutmaster will go to Turner Falls Tuesday. Troop No. 3 Erving Bonner scoutmaster, will go camping Wednesday and spend several days near Frisco.

Any boy scout interested in going to Turner Falls Tuesday should come to Chamber of Commerce Monday and arrange for the same. Get a list from Mr. Miller. This trip will be made as cheap as it can be made. Come around, tell us what you need and if we can possibly arrange he will help you off on this trip. The same thing applies to troop, No. 3 boys who are going to camp near Frisco under the supervision of Mr. Erving Bonner. Any Boy Scout in Ada or the County who wants to go off on a camping trip should see Mr. Miller for he will do his best to get others to help you some way.

SWITZERLAND BEMOANS LOSS FROM TOURISTS

(By the Associated Press)

GENEVA, Switzerland — Four years of high exchange have ruined tourist travel in Switzerland. Many hotel keepers are unable to pay their rent, some have failed, and business people say that if nothing is done to bring the current of travel back to the Swiss Alps, there will be many more failures.

"Switzerland was formerly the favorite path of tourists from all over the world," said one hotel proprietor recently. "Today it is the mecca of the idealist. No one comes here except peace makers and persons interested in the League of Nations."

It is estimated that 95 per cent of the foreign travelers now in Switzerland are Americans, and the greater part of these are bound for Geneva to look into the functioning of the League of Nations. The heavy British trade has been lost because travel in the Italian and French Alps costs only about a third as much as in Switzerland. The people of other countries are unable to stand the high rate of exchange.

Complaint is made in Switzerland that the federal authorities have done nothing to solve the problem. Meanwhile trade languishes and the Swiss people, with diminished incomes, go outside the country for their pleasure trips in order to economize.

The other evening the orchestra of a cafe that formerly was crowded from seven o'clock until midnight was playing to a single customer at a quarter past nine, and a half dozen waiters were lounging about with nothing to do but pray for time to pass.

The only way to change a self-idolized Jane into a emotionalist is to comment on her homeliness.

The restaurant waiter is so thin that he makes his living drying bottles and pulling out corks.

Our ad man thinks that when a man laments that his wife can't take a joke, he should remember that she took him for better or worse.

In the olden days when grandma skipped to school with her slate and shiny face, she wore cotton stockings and didn't care—no body could see them. Now they should wear silk tights.

Men who lecture to their wives and find it unavailing, should take the wife to a prize fight.

If a woman admits that she made her daughter's dress, there are those who will admit later that it looks it but if she makes no comment, she is accused just the same.

Now and then a fellow saves some money by buying a real girl a diamond and permitting her to keep it until she finds out enough about him to give it back.

Shifts of Passion
At 17 a boy wants to marry his childhood sweetheart.

At 20 a young man wants a chorus girl.

At 25 he wants a vision of loveliness.

At 30 he wants a good woman mother type.

At 35 he wants an economical thrifty woman.

At 40 he wants a woman with some money—widow maybe.

At 45 he wants a woman.

At 50 he wants a young woman.

At 55 he wants a girl.

At 60 he wants a chicken.

Say It With Melody

"Our Earnest"—

"Are You Playing Fair?" You are away down there "In Yama," while I am in the "Gin Gin Ginny Shore."

It was "In Rosetime When We Said Goodbye," back there in "Ohio."

"Oh Loveable Eyes," on this "Mystic Night," I realize that "Nobody Lied When They Said that I Cried Over You."

"My Sun God," "I'd Rather Loved You and Lost You than Never Have Loved You at All."

"Don't Forget," you promised "Over the Radiophone, 55 to be "My Buddy."

Do you ever see "Georgette," "Genevieve," "Mary O'Brien," or "The Dancing Fool?"

We all seem to "Tiddle Along," some to "Chicago" some to "California," some to the "Dixie Highway," others to "Argentina," or "Bamboo Bay." Some have even gone "Down Virginia Way," while "Someday," I hope to get back to "Sweet Idiana Home."

The other night at a dance while I was "Stumbling" with some fellow I had to tell him to "Keep Off My Shoes." He sure was an Aggravatin' Papa."

Well, I must stop as it is "Three o'clock in the Morning."

"Toot Toot Tootsie Goo' Bye."

PRODUCTION RECORDS IN FORD OUTPUT SHATTERED

DETROIT, Mich., Aug. 11.—All previous production records of the Ford Motor company were exceeded during the week ending Tuesday, July 31st. Domestic output for the week. The Ford News announces, totaled 41,198 Ford cars and trucks, 268 greater than the record established the week before.

Daily production for the six days was almost a constant succession of new records. Friday, July 27, started it with 6,907, Monday came along with 7,009 and Tuesday ended the week with an output for the day of 7,121 cars and trucks.

Increasing demand for the Ford, which is bringing unprecedented sales figures, continues and manufacturing is being kept at capacity in an endeavor to meet it. The production schedule for August calls for 183,735 cars and trucks, the largest month's schedule so far.

The Fordson tractor plant's output for the week ending Tuesday was 2,002.

The Lincoln division of the company turned out 208 cars.

WALL STREET DUE FOR SHOCK OF SEASON

(By the Associated Press)

NEW YORK, Aug. 11.—Wall Street probably will get its promised shock in the E. M. Fuller and company bucket shop scandal Monday. It was reported that the federal building this that United States Attorney Hayward would send Edward M. Fuller and William F. McGee, confessed bucketeers, before the federal grand jury Monday morning to detail before jurors the startling charges they made in their confession to him early this week.

Leviathan Interests Germany

(By the Associated Press)
BERLIN—Pictures of the Leviathan are displayed prominently in the show windows of tourists agencies in Berlin and other German cities, and there has been much display advertising in the newspapers concerning the newly-equipped giant which is sailing under the American flag.

But German newspapers have commented with some bitterness on the fact that the publicity campaign makes no mention of the fact that the Leviathan was formerly the German-built Vaterland.

SWIM SEASON IN
FULL SWING NOW

Local salesmen report swim
Suits in demand in
August

Swimming as a means of sport and recreation apparently continues to hold its early summer popularity during the present hot days, to judge from the sales of bathing suits reported by some of the local merchants.

Beginning late in June and lasting throughout July the demand for bathing suits it at its greatest, that being the regular swim season. August however, claims its quota of sales when many of those purchased the summer before begin to lose their pristine colors or shrink modestly to proportions too small for the original wearer.

Salesmen state that many purchases now for the remainder of this season and for the next season calculating on a season and half of service to each suit.

It is also stated that all wool suits are in much greater demand than formerly, replacing almost entirely the cotton garment that was once the highest ideal of bathing style. The chief reason for this is that the wool gives greater protection from chill, some asserting that the cotton not only does not prevent but actually aids the light breezes of summer in bringing shivers to the wearer.

The end of August usually sees the end of the bathing suit sales period and the fall styles begin to appear and competition for the fall trade opens with a rush, to continue until the periodical cold weather garments arrive.

Inhabitants of England can speak by telephone to France, Belgium, Holland and Switzerland.

The Fanning
Bee Hive

By Norman E. Brown.

ONCE MORE

Jimmy Austin Steps
Into the breach at St. Louis and assumes the leadership of the Browns. When Lee Fohl stepped down and out the other day Austin was named manager to succeed him until George Sisler is able to take over the reins.

Back in 1913 George Stovall was let out by the Brown owners and Austin was asked to take the managerial job until a successor was found.

Austin is one of those rare birds who form a necessary part of a ball club or any organization in sport or business. Faithfulness and willingness to serve in any capacity are the chief attributes of such men. In addition to these virtues, however, Austin for years ranked as one of the best little third basemen in the game. Pepper was his middle name. He may never have reached the heights some others have scaled, but he proved himself a brilliant infielder and brainy player under what were at times disheartening circumstances.

In addition to serving as manager pro-tem, Austin once found himself Sunday manager—filling that role when Branch Riekey was manager. Riekey did not care to manage the team from the bench on Sundays.

Austin has been with the Browns thirteen summers and in the big show fifteen. The Yankees bought him from Omaha in 1908 and in 1910 traded him to the Browns for Hartzell. Jim had started with Dayton in the Central league and gone to Omaha after three seasons at short and third with the Ophans. He was born in Swansea, Wales, December 8, 1882.

Ants have been preserved in amber for thousands of years.

COLLEGE SQUAD
GIVES PROMISE

Letters From Prospects From
all Parts of Country
Give Prestige.

Prospects for the coming football team of the college grow brighter every day, says Coach Thompson, as letters arrive almost daily from prospective material. It would seem that the school here has acquired somewhat of a reputation in school circles, for the inquiries of work offered here and the chances of securing outside work come from all parts of the state and occasionally from surrounding states.

With such a wealth of material and with Coaches Thompson and Milam to shape this into a team the coming season promises to be by far the most successful in the history of East Central.

The Tiger spirit is very much in evidence in the fellows who intend coming here for their college football and education. Real sport is in view for the coming season for all the other state schools report their prospects bright for record teams.

An advantage which the Tigers will have over many of their opponents will be that the last year's coaching staff will not be changed while a number of the other schools which will be played have made changes in their coaching mentors.

Practically every member of the last year's team expects to don the mole skins early in September and compete for positions with the newcomers. Keen competition is in prospect and only the best will be able to win the honor of representing the school against other teams.

The schedule is already formed and includes games with all the other state teachers colleges in addition to several of the denominational schools of the state.

Mr. Thompson does not expect to begin actual practice until a few days before the beginning of the school year. At that time there will be available a quantity of new equipment made necessary by the influx of high school material looking for higher honors in the football world.

COOPER TO MEET
KING AT CAPITAL

Ada champion slated for ten
Rounds with sparring
Partner of Britton

Archie Cooper will sling his wicked mitts for the howling approval of Oklahoma City fight fans again next Friday night at the Western League baseball park in the firemen's benefit boxing exhibition.

Cooper is matched for a ten-round whirl with Mickey King, former sparring partner of Jack Britton and considered one of the best in these localities. Mickey is rated to carry a good wallop while Cooper carries certain destruction in his left handle, so local fans as well as followers in other parts of the state are wondering at the outcome.

Word received here from reliable sources indicate that Cooper's style of clean fighting has made him a popular demand on any fight card brought to the ring in Oklahoma City. Cooper has been rated as the most popular fighter in Oklahoma.

Cloud Sparks, the iron-jawed batter from Ada will also take a part on the firemen's card being slated for a six-round match with Johnnie Palmer, a Wisconsin product.

Matches for the Ada ring artists were secured through the efforts of O. L. Cutler, manager of the Coliseum Athletic club of Oklahoma City. Cutler arranged for the first match that Cooper appeared in in Oklahoma City. Cooper was slated the loser in a six-round go with Yennie Hendricks, Oklahoma university fighter, but the decision was rendered against the decision of the fans. Cooper beat Hendricks in a decision on a later date.

Cooper's last victory was over Johnnie Walker of Kansas City here last Thursday night when he gained a technical knockout in the fourth round of their scheduled ten-round engagement.

POSTOFFICE SAFE GOES
ON COMBINATION STRIKE

Saturday was a day of sweating and worry at the postoffice. When an attempt was made to open the big safe at 7:30 a. m. the combination went on a strike and refused to respond. Postmaster Manville states that during the day just about every man in Ada who was supposed to know anything about the mechanism of a safe was summoned and tried to lend a hand but it was not until 4:30 that the combination finally called off its strike and responded.

Mr. Manville says some inconvenience was caused the public during the day as most of the post-office supplies were locked up in the safe, but he is hopeful that it will not occur again soon.

Brazil's population is 30,000,000

HEALDTON AGAIN OUT
FOR SCALP OF LOCALS

Healdton amateur baseball team seems to be hard to discourage. In spite of having been beaten once already this season by the local club the Healdton swatters are coming once more in an attempt to even matters for this year.

The visitors have one of the best amateur clubs in the state, made up of hard hitters who play a good clean brand of baseball. The game will begin at 3:30 at the ball park on West Main.

Ada will be represented in the field and at bat by practically the same lineup that has been discouraging visiting teams for the entire season.

A popular player who will be here for the game Sunday to take his part in the battle is Homer Blankenship who made a reputation for himself in the Anadarko series. He is expected to tone up the slugging spirits of the local batters.

It is planned to use Williams in the box where it is believed he can hold the visitors while his teammates are running up a safe margin of scores.

MIDDLE WEST TO
ENTER ATHLETES

Many Records Expected to be
Shattered in Central
A. A. U. Meet.

(By the Associated Press)

DETROIT, Mich., Aug. 11.—Star athletes of the middle west will gather here August 18 to take part in the annual track and field meet of the Central A. A. U., to be staged on Belle Isle under auspices of the Detroit News.

Belief that several new records will be established if weather and track conditions are favorable, is expressed by those in charge of the meet. They base their belief on the excellence of similar performances at other meets so far this year in which those entered in the forthcoming events took part.

Illinois Athletic Club, with a galaxy of stars, the University of Michigan, which will send virtually all of its eligible first string men, and the Chicago Athletic Club, are looked upon as the most likely bidders for premier team honors.

The aggregation of athletes will include such figures as Joie Ray, world's record middle distance runner, wearing the colors of I. A. C.; Charles R. Brooks, captain of the University of Iowa team and holder of the world's low hurdle record; Howard Hoffman, former Michigan star who held the national intercollegiate javelin championship, and who now wears the colors of I. A. C.; Eugene Goodwillie, Chicago Athletic Club entry who holds the national interscholastic record in the 100 yard dash and the world's record for 220 yards around a curve; Gus Pope, formerly of the University of Washington and who for three years held the national outdoor discus championship; Emerson Norton, I. A. C. entry who formerly was national all around champion; Albert Washington, negro star of the University of Chicago, who is the only man to make the 100 yard dash on Staff field against the wind in 9.4 seconds.

The I. A. C. has entered its world's championship four mile relay team, consisting of Joie Ray, Egil Krogh, Ray Watson, and Ray Buker.

Several stars of the University of Michigan, who helped the Wolverines win the premier place in track and field last spring, also are entered. They include DeHart Hubbard, the negro broad jumper, William Van Orden, former Michigan man, who won the shot put event at the Central meet here last year, also will compete.

LAWTON TO OPEN ARMS TO LEGION

Gigantic Parade to Start Off Annual Convention of War Veterans.

LAWTON, Aug. 10.—A parade in which all Legion posts will participate will be held at Lawton at 8 o'clock on Tuesday morning, the second day of the Department Legion convention. The parade will form and march to the Convention Hall. Posts have been urged to bring their colors. The following 12 posts in membership campaigns won the honor of leading the parade in the order mentioned: (1) Yale, (2) Weatherford, (3) Bristol, (4) Altus, (5) Port, (6) Sulphur, (7) Mima, (8) Norman (town post), (9) Eldorado, (10) Welch, (11) Sayre, (12) Guymon. Other posts will march in their numerical order.

From reveille and the flag raising on Monday morning until the end of the boxing bout Tuesday night, the 5,000 Legionnaires and Auxiliary members expected will find entertainment for every spare moment. The automobile tour on the first afternoon, will be popular, ending at Medicine Park where all amusements will be thrown open free to Legionnaires, winding up with a fish fry. "Stunt night" on Monday will be in charge of the 40 and 8. A pavement dance and the boxing bout will furnish amusement on the closing night. On Sunday a special exhibit will be given by Superintendent Shanklin of the National Forest Reserve where there is a herd of 265 buffaloes and other animals.

Lawton is ready for the biggest convention in her history, and Legionnaires and citizens guarantee all a good time.

STORAGE BATTERIES ON LEVIATHAN HOLD RESERVE POWER FOR EMERGENCIES

Elaborate precautions are taken to maintain in the event of emergency, radio communication between the Leviathan and the rest of the world.

This system of emergency radio on the Leviathan is explained by Mr. Oakley Gale of the local Exide Battery Service Station. Should the main set, which is the greatest ship's radio in the world, become disabled, an emergency set will provide the means of communication with the nearest stations. This set is equipped with an Exide Battery of 60 cells, which is held in reserve, ready at all times to furnish the current that may be needed in case of trouble to send broadcast the call for help.

This emergency power equipment, according to Mr. Gale is not the only provision made to insure uninterrupted service from the electrical equipment of the Leviathan. Incidentally, its electrical equipment is probably the most elaborate of any ship's today. For instance 600 inter-cabin telephones furnish facilities for the passengers to converse with one another from their state rooms. These, as well as the inter-communication system, are operated by Exide Batteries.

Another of the many emergency units of storage batteries is that held in reserve in the event of the failure of the mighty generators, which supply the current for the thousands of lights throughout the ship. Should these generators fail, a sufficient part of the lighting load could be automatically taken up by an Exide Battery of 120 cells. Thus, confusion and possible panic at night might be prevented. One of the many devices which make the Leviathan the safest ship in the world for ocean travel is the "clear vision screen." This is a glass screen, electrically driven at 2,000 P. M. It enables the Leviathan's officers to see through rain and fog. Exide Batteries, floating on a power line, insure unfailing power for this and many other of these devices with which the Leviathan is equipped for safety purposes.

LAWTON'S POWER LIES IN ITS SIMPLICITY

Just as many great characters are made up of small but good qualities, so may a screen drama be simple yet powerful. This is said to be true of the William Fox production, "The Town that Forgot It," which opens for its first local showing at the American theatre at Wednesday.

The locale of the story is just any old American community where the blooded folk strive to get the best out of life. The characters are as they may be found in any such community not forgetting those characters which, in their own ego, close their eyes to the small things and have instead, sought rule others through the small horridy given them. In the portrayal of the life in this community the screen drama points out clearly and vividly the gross errors a people content to believe in their own thoughts.

The story tells of a small boy, an orphan, who becomes the pet of the village. He is mistreated, kicked about, and has but one friend—a simple rustic—who one time loved his mother. The boy comes when the wrath of the village is wrought on this town the form of a flood—and the boy who has been taught to have faith in his God, prays for forgiveness of those who have wronged him.

DODGE BROTHERS CARS MARK BIG IMPROVEMENT

Market improvement in appearance and comfort is apparent in the new line of Dodge Brothers Motor Cars, in the production of which the factory has been gathering momentum since July 1. Hundreds of dealers are now supplied with display cars of the new type, and from every source the factory is receiving reports of enthusiastic approval by the public.

While the basic characteristics of the familiar Dodge Brothers cars of recent days are still present, there is an air of distinctiveness that surpasses all previous efforts of this concern to build a moderately priced car of commendable appearance as well as quality.

The wheelbase is a trifle longer, the body is lower and the rear springs changed to semi-elliptical type are underslung, and increased from 45 to 55 inches in length.

All the features so popular with the public today are embodied in the design of the complete line, which includes a touring car, roadster, coupe, two types of sedan and screen side and panel side commercial cars of 3-4 ton capacity. All steel bodies—as first introduced by Dodge Brothers in their open passenger cars several years ago—are now used for all types.

The effect of the longer and lower body and longer wheelbase, combined with the new lines and lower seats, is very fine. According to dealers and others who have driven the new cars, the improvement in riding qualities is no less pronounced than the improvement in general design. The reduction in body height lowers the center of gravity and thereby reduces sway, while rebound shocks are effectively dissipated by the improved front and rear springs. The car holds the road easily and gracefully and affords real riding comfort.

Another distinct new feature is the louvers or ventilator slits in the sides of the hood panels. This change increases the flow of air through the radiator and reduces the flow of hot air to the floorboards, making summer driving most comfortable.

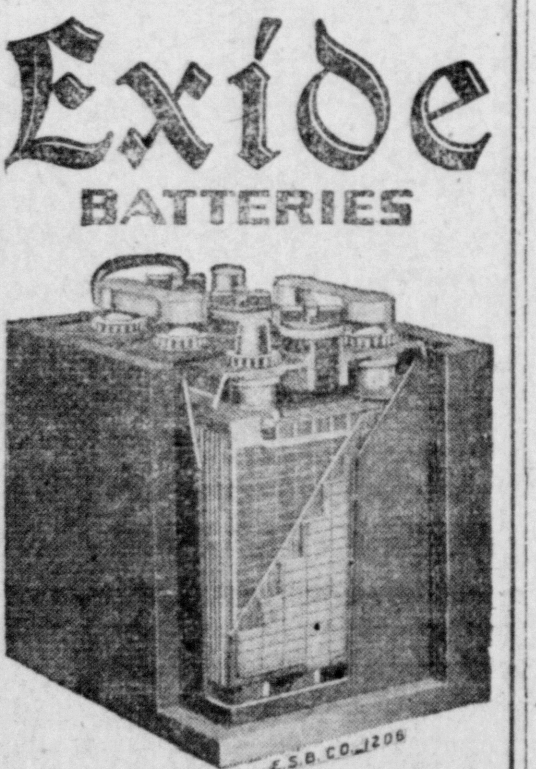

The rear seat and all upholstery of the touring car are removable, affording a large space for loading luggage or other articles. Seats in all types are deeper and lower adding to comfort and leg room.

The instrument board is greatly improved in appearance, with instruments grouped on a raised panel and with longer lighting switch lever, facilitating control of the lights while driving.

Head lamps are specially designed to harmonize with the new body lines. A combination caution signal and tail lamp is mounted rigidly on the license plate bracket and conforms with the requirements of all states having lighting regulations.

Brake pedal pads are larger and of a design which makes for greater ease and safety. The hand brake lever, like the shifting lever, is moved forward giving more leg room and making it easier to get in and out. A Yale lock is built into the transmission, making it possible to double-lock the car when idle.

The steering wheel is materially improved in appearance and all electrical connections are inside the steering column.

A Service to Help You Conserve Your Battery

Perhaps the first thing we can do for you is to show you how to save the time and bother of regular visits by taking care of your own battery.

Come in and let us demonstrate how easy it is for you to test your battery and put in water. To neglect these things is to invite expensive trouble.

If charging or repairs are necessary, we are manned and equipped to put your battery in the best possible shape.

When you need a new battery, we have an Exide built to give you the maximum combination of power, dependability, and long life.

We would like you to feel that we are here to help you get the most out of your battery.

ASIR MAINTAINS PRIMITIVE LORE

Little Municipality on Red Sea Remains Isolated to Civilization.

(By the Associated Press)

WASHINGTON, Aug. 10.—The Emir of Asir is dead and buried in his capital at Sabia, and has been succeeded by his son; but it has remained for the National Geographic Society to call the attention of the world to his passing and to the romantic existence of the little nation over which he reigned.

Asir is a principality situated on the Arabian shore of the Red Sea, says a bulletin issued by the society, and has existed with little change probably since the Israelites traversed that body of water dry shod. Phoenicians, Venetians and Portuguese have coasted along its sandy shores and, since the Suez Canal was completed, steamers from all parts of the world have passed in sight of its beaches. Yet the country is little known to travelers.

One reason for this is that the inhabitants are fanatic Mohammedans. Not only are Christians not

wanted, but even the Turks, who also are Moslems and representatives of the Caliph, are their enemies. In fact, during her war with Turkey in 1911-12, Italy managed to gain the alliance of the Emir of Asir against Constantinople. Nominally Asir was a part of the Turkish Empire, but the people never surrendered their independence. While the Turks held several garrison towns, very little of the country's area was ever explored by them.

There is nothing along the Red Sea coast of the country to attract the traveler, for it is hot and barren and fever-ridden. But the high plateau behind which rises the interior of Asir, is a land of much water and of gardens, fields and orchards.

Find Prehistoric Graves

(By the Associated Press)

PRAGUE.—While digging a canal in the Ore Mountains recently, workmen unearthed tombs which archaeologists declare are over 4,000 years old.

The skeletons lying on the ground in a crouching attitude, are well preserved, and conspicuously large. The forehead is receding, the frontal sinus strongly developed, the upper jaw protruding and the chin small, the teeth are much worn but otherwise sound.

Ambulance calls in New York number 110,000 a year.

Read all the ads all the time.

Millions Spent for Gum

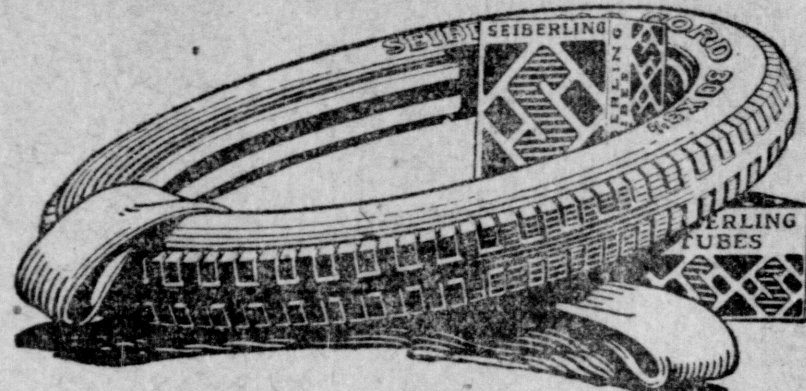

(By the Associated Press)

NEW YORK.—The people of the United States pay more than a million dollars a week for their chewing gum, according to statistics brought together by the National City Bank and given out by this

institution. The habit of chewing gum evidently is growing, for the output has doubled since 1914.

The export sales of gum are large and increasing. The product goes to practically every country in the world.
